VI. Declaration of Travel History and Health Status of Students

As required by the EDB and to give a clear picture to the school about your daughter's travel history and health status, parents need to complete a declaration form before the resumption of face-to-face classes. The school will remind you again by SMS to complete the online form when the completion period draws near.

VII. Health Precautionary Measures and On-campus Hygiene

- Cooperation from parents and students are important for us to maintain a clean and safe environment. We call on your support to step up environmental hygiene in the household, and, on top of that, implement the following measures strictly:
 - Pay attention to the health condition of your daughter. She should stay away from school and see a doctor immediately if symptoms of COVID-19, especially fever, are detected. If she is found to have the symptoms, especially fever while in school, you will be asked to come to school to take her to seek medical advice.
 - Students should wear a mask all the time in the school campus. It is also applicable when taking school buses or other public transportations. They should also bring with them tissue paper and hand sanitizer to school every day. The school is providing hand sanitizer in each classroom as well.
- The school has been following strictly the EDB guidelines in ensuring a hygienic and safe school campus. All the facilities are disinfected thoroughly and regularly. There will also be measuring temperatures of teachers, students and visitors at the school entrances.
- The use of water dispenser will be suspended. Therefore, students should bring their own water or they can buy from the tuck shop.
- Eating and drinking are only allowed in the designated areas: covered playground and Room 216. While eating light snacks and drinking, students should refrain from talking and observe social distancing.
- In using the toilets and queuing at the tuck shop, social distancing is to be observed.

VIII. Tuck Shop

There will be tuck shop service offering simple snacks and drinks.

The school will continuously monitor the development of the epidemic and make timely arrangements as appropriate.

With concerted efforts contributed by different parties, we look forward to overcoming the adversities of the epidemic to maintain a safe and healthy environment for all. If you have any further enquiries, please contact the class teachers.

Thank you very much for your attention.

Yours sincerely,

 Mrs. Cherry Chan
